Achievements/Tasks

- Collaborated with a cross-functional team to design and develop a scalable customer-facing mobile application and an ERP admin panel supporting multiple departments. Delivered a seamless native experience across mobile platforms using Cordova.
- Contributed to the development of a high-performance React application, implementing client-side caching for millions of paginated records. Optimized orders and reports sections to boost data retrieval speeds, enhancing user experience.
- Integrated barcode scanning for real-time inventory updates and ERP synchronization in a textile-based SaaS product, improving purchase order creation, tracking, and operational efficiency.
- Enhanced the performance and SEO of an eCommerce application by leveraging server-side rendering (SSR) for dynamic pages. Implemented type-safe API validation to ensure data integrity and optimized load times with code splitting and lazy loading.
